

2018 Profile of Education Giving: Highlights

ABAG presents highlights from the 2018 Profile of Education Giving. The Profile of Education Giving aggregates data about ABAG members' investments in education in 2017. In 2018, ABAG disseminated an online survey to all its members. We received responses from over 30 ABAG members about the education-related organizations they support and their education priority areas. The full Profile of Education Giving provides ABAG members a snapshot of the scope of education-related grantmaking among our membership and helps members connect with colleagues who also care about specific education issues.

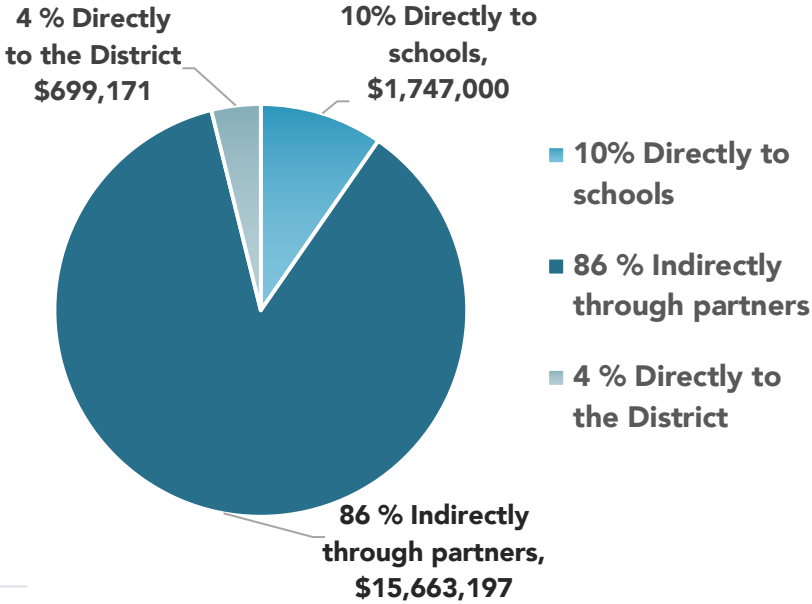

OVERVIEW

In 2017, ABAG members contributed more than \$48.4 million to education efforts through more than 800 grants to more than 375 organizations. Summer learning, children's literacy and afterschool/extended hours were top funding priorities for the greatest number of ABAG members in 2017.

ABAG members support education efforts for all ages with an emphasis in early childhood and K-12

In 2017, ABAG members gave more than \$18 million to organizations working with Baltimore City Schools, to individual schools, and directly to the district.
