How Learning is Evolving

Cohort-Based Learning

Time-limited groups working through a shared challenge or opportunity together. Facilitated discussions with built-in peer exchange.

Network Groups

Ongoing groups organized around a part of the aging landscape. Members share what they're seeing — ASA captures and shares the patterns.

Cross Sector Convenings

Designed conversations and gatherings where people discover shared interests and build working relationships. Also, facilitated with a focus on knowledge capture and action.

Let's chat.
